

About me.

I am a freelancer Graphic, Web and Digital designer now living in the West Midlands. I love what I do and take pride in my work. I'm diligent, hard-working and pay attention to pixel perfect design, and have around 11 years of experience in my field. I love to make things look good and love designing for print and digital platforms. I have been freelancing and working from home since I moved up to the West Midlands over a year ago, however I would really be happy to be part of a team again. I am interested in getting into a new contract or a great suitable permanent role. I love to learn new things and always want to push my skills in new directions, my next field of interest is motion graphics and video editing. I always try to challenge myself and keep up with trends.

NERISSA

Work history. [2009-Present]
